What is FridgTrackr?

FridgTrackr is a database and browsing based application centered around the idea of being able to quickly view and sort through items in one's pantry/fridge, as well as keep track of relavent information about those items. FridgTrackr also allows for storing of a grocery list, as well as the storage of recipes that can be looked up and filtered based on a variety of factors.In addition, FridgTrackr aims to provide a user interface that is intuitive and easy to learn, while still maintaining the functionality of a relatively high quality database application.
